

A vibrant underwater photograph showing several children swimming over a diverse coral reef. In the foreground, a girl in a purple shirt and yellow goggles rests her chin on her hand, looking towards the camera. To her left, another girl in a pink shirt and blue goggles swims. In the background, two boys are also visible, one in blue shorts and another in dark shorts. The water is clear and blue, and the coral below is a mix of yellow, orange, and green.

*Obviously, there is the reality
in this world.*

But it is
undoubtedly
as well, that
there are
dreams
in it too.

So, what is it...

*...and why is it so important
for people to dream sometimes?*

*In fact, it has a simple explanation.
Our life is like a difficult road
with a big set of rules.*

*But dreams let any soul to throw
aside any rules and limitations,*

*...and in a second find
ourselves in a place,*

...where we really want to be.

*And it is quite possible that dreams
are an invisible certain reality.
Such as radio waves, for example.*

*And, then who knows what role
the dreamers really play in this world...*

*Of course, different people
have different dreams.*

Sometimes they may be amusing,

...sometimes,
they may
not seem too
reasonable.

So what?
That's why
they are
dreams!

What do
people like
to dream
about most
of all?

*In fact, there is a countless number
of things to dream about in the world.*

There are
dreams
about
simple
things,

...and about big, complex ones.

NO SMOKING
NO WATER SKIING
NO ROLLER SKIING
NO BICYCLES
NO SCOOTERS

Someone
dreams about
an interesting hobby.

*And others
want to take a trip
to a beautiful
country.*

*Those who value feelings most
of all dream about true friendship,*

*...and about
unforgettable
meetings.*

*However, the most important
dreams in humanity are still
the dreams about love.*

*(Well, or about
a very big love...)*

*Nothing changes here for thousands
of years. And it's great.*

*Actually, suspiciously many sages said
that dreams could be materialized,*

*...or, in other words,
they can be reflected in our real life.*

*So maybe later we all will figure
out that dreaming is...*

*...not such
a useless
activity...*

What do we know about dreams

A photo story

An underwater photograph showing several divers swimming in clear blue water above a vibrant coral reef. The divers are in various poses, some looking towards the camera. The coral reef at the bottom is diverse, with many branching and brain-like coral structures in shades of orange, yellow, and brown.

*What are the dreams
and what do people
need them for?*

*Let's reflect about
this topic a little.*
